

EUWAX[®] G10

Description	Compounds containing polar, long-chain, fatty alcohol esters	
Appearance	Light white beads, good fluidity, no odor	
Technical Data	Drop point	>55℃
	Acid value	<2.0mg KOH/g
	Iodine value	<1.0 gI ₂ /100g
	Saponification value	90~100mg KOH/g
	Ash content(600℃)	<0.01%
Applications	As a PVC lubricant with strong plasticizing ability and melt fluidity, it is often used in the processing of various PVC products.	
	For PVC high transparent products, such as cables, pipes; Sheet, film, etc.	
	It can eliminate the crystal points on the surface of PVC soft products such as hoses and cables, making the surface high gloss.	
Dosage	Used in PVC shoes, to help efficient plasticization and melt flow, more uniform foaming, more smooth surface.	
	0.6 ~ 1.2phr (for Pipe, sheet, film)	
	0.5~1.5 phr (for Wires and cables)	
Net weight	1~1.2 phr (for shoes)	
	25kg/bag	
Storage	It is recommended to store EUWAX [®] G10 at room temperature and to protect the product against the effects of heat and frost.If stored in sealed original containers, EUWAX [®] G10 will keep for at least 24 months.
